Chief Officer for Scientific Workforce Diversity
National Institutes of Health

Enhancing Diversity in the Scientific Workforce: An Opportunity and Imperative for Excellence

INTRODUCTION BY
Dean Dennis S. Charney, MD

Dr. Hannah Valantine, the inaugural NIH Chief Officer for Scientific Workforce Diversity, is leading NIH efforts to promote diversity through innovation across the NIH-funded biomedical workforce through a range of evidence-based approaches. She will discuss her strategy and methods through the lens of four diversity-related challenges: expanding the science of diversity; building an evidence base on recruitment, retention, and career development; understanding and mitigating the effects of sociocultural factors on biomedical careers; and sustaining workforce diversity nationwide.

Tues March 7, 2017 4pm
Davis Auditorium
Hess Center for Science & Medicine
1470 Madison Avenue
